PERSONAL CARE & SAFETY

Alco-Gel

ITEM# 28793

Alco-Gel™

INSTANT ANTISEPTIC/SANITIZER FOR HANDS

Alco-Gel sanitizes your hands without water or towels. More than 80% of germs are transferred from hard surfaces like doorknobs, telephone receivers, water faucets, filing cabinets, flush handles, business equipment, steering wheels, and hundreds of other every-day surfaces that everyone comes into contact with. Also, shaking hands can spread germs. Using Alco-Gel helps eliminate contact with unwanted germs. Most common illnesses like a cold or flu are a direct result of transferring germs from your hands to your mouth. FFCI's Alco-Gel takes just seconds to evaporate from your hands to maximize the benefit of germ elimination and hand care protection.

FEATURES

- Evaporates within seconds*
- No water or towels needed*
