Easy Step™

SUPER CONCENTRATED BIO ACTIVE ENZYME FLOOR CLEANER

Easy Step improves traction and reduces the potential for slips and falls. It brightens grout with an enzyme formula that continues to work 24-7. Easy Step eliminates odors with Bio Active enzymes that digest soils and grease that cause odors. Use Easy Step to treat drain lines by squeegeeing excess down drains to remove build-up. Easy Step requires no rinsing; just wash and let dry. This reduces time, labor and water usage. Floors are cleaner, safer and odor free because Easy Step penetrates the pores of tile and grout to eat away at grease and build up.

FEATURES

- Improves traction*
- Brightens grout*
- Eliminates odors*
- Highly concentrated*
- Treats drain lines*
- No rinsing*
- Floors are cleaner, safer and odor free*

USES

- Public Areas
- Bathrooms
