The Shield

ITEM# 115732

The Shield™

DISPOSABLE URINAL FLOOR MAT

The Shield eliminates odors and messes created by urine drip in urinal stalls. It is made of 3 unique layers:

TOP LAYER: Heavy duty plastic grid that provides a barrier between encapsulated urine and the bottom of shoes.

MIDDLE LAYER: Absorbent core that holds more than 2 ml of liquid per square inch and has a neutralizing agent to control odors.

BOTTOM LAYER: Poly stay bottom that holds the mat in place until it's ready for disposal.

The Shield captures urine drippage and absorbs it deep into the fiber center.

FEATURES

Controls odors to keep restrooms smelling fresh

Absorbs liquids immediately and converts it into a gel contained deep in the fibers of the middle layer

Prevents cross-contamination from standing in puddles

Prevents tracking throughout building

Increases safety by reducing potential slips or falls

Reduces labor of cleaning floors

Easy to use - simply throw away when fully soiled

Lasts up to 60 days
